Appleton Builders Will be Given Op-
portunity to Bid on Construc-
tion Work—Hope to Break
Ground Not Later
Than September 1

Not a day has been wasted by the
Sisters in charge of St. Elizabeth hos-
pital in preparing plans for the new
building made possible by the suc-
cessful \$500,000 campaign. The
moment the subscriptions were all re-
corded a night letter was sent to
Mother General Mary Casimira at St.
Louis, Mo., stating that Appleton was
ready for a new hospital.

The mother general together with
Joseph Temme, superintendent of
construction and E. Kluto, architect,
arrived in Appleton Tuesday and
started planning a structure that
would meet Appleton's needs. It is
to be a four story brick building ex-
tending to the south of the present
hospital. Every department neces-
sary to a modern city hospital is to
be included and the equipment is to
be the most modern that money can
buy. It will take two or three months
to complete the plans and specifica-
tions, but it is hoped that ground
may be broken about September 1.

Study Ground Plans
Mr. Temme and Mr. Kluto devoted
considerable time to studying the
ground plans. Tentative drawings
had been made three or four years
ago but it was found necessary to al-
ter them. It was decided to place the
new building south of the present
structure to which it would be joined
on three floors. A separate heating
plant and laundry will be built in the
ravine north of the old building. The
entrance to the main building will be
from the south side and a driveway
built through the grounds from Lake
street.

The plans provide for a four story
building with room for not less than
200 beds. The new unit will be 270
feet in length and will run east and
west.

Brick was selected as the best ma-
terial, but the kind is to be chosen
later. The building will be absolute-
ly fire-proof; the only wood used will
be in the window frames and doors.
The floors will be either tile or tera-
zo and the walls of plain, sanitary
construction.

Provide Much Light
Roomy porches are to be built on
all floors at the east and west ends.
This will make it possible for pa-
tients to be wheeled out into the
fresh air, no matter what floor they
are on. One sun parlor will be in-
cluded on each floor, situated so the
sunlight can enter from either the
east or west.

The new building will be confined
as closely as possible to hospital ser-
vice. Quarters for the nurses and a
training school for nurses will be
maintained in the old building, which
will also be used for storage pur-
poses. A commodious new kitchen
with all possible labor-saving devices
such as dish washing machines and
steam cooking equipment will be pro-
vided in the basement of the new unit.

Plan Many Departments
Among the departments planned are
three operating rooms, dental room,
laboratory, complete X-ray depart-
ment, fully equipped maternity de-
partment, nursery and drug room.
Each of these will be equipped with
everything required by modern medi-
cine and surgery. A registered phar-
macist is to be placed in charge of the
drug room.

Erection of a separate building for
the heating plant will largely elimi-
nate danger of explosions and fire.
The boilers will be removed from the
old structure and all heat supplied
by the new power unit. This will also
lower the insurance rates on the
building. It is planned to include a
modern laundry in the same build-
ing. Quarters for the men employed
at the hospital will be provided in
the second story of this building.

Proud of Institution
The sisters are confident that Ap-
pleton will have a hospital of which
it can be proud. Mr. Kluto, who is
to prepare the plans, has erected six
other satisfactory hospitals for the
Franciscan sisters. This experience
gained by Mr. Kluto in this work is
expected to be of great value in de-
signing the Appleton structure along
the most practical lines. The archi-
tect will confer with local men later
so that conditions here will be taken
into consideration. He is a licensed
architect of the state of Illinois.

Local Men to Aid
Local contractors will have equal
opportunity with outside firms to
figure on the project. Dealers have
already been consulted and were
asked to submit samples of brick and
other materials. The building work
is to be personally supervised by Mr.
Temme. Mother General Casimira
came to Appleton to personally thank
the committee and the citizens who
made the financing of the new hospi-
tal a success. She promised that
there would be no unnecessary delays
and that the utmost care would be
used to purchase the materials econ-
omically. She left Thursday morning
together with Mr. Kluto and Mr.
Temme for St. Louis, where prepara-
tion of the drawings and specifica-
tions will start at once. The two
gentlemen are to visit every hospital
in Milwaukee and Chicago on their

SENATE OUTLINES POLICY FOR SALE OF U. S. VESSELS

NUMBER OF MEASURES AWAIT-
ING ACTION BEFORE AD-

WARTIME LAWS REPEALED

Lever Act Continues in Force But
Other Restrictive Measures
Are Repealed by House
Vote—Appropriation
Bills Remain

By United Press Leased Wire
Washington.—The senate today
accepted the conference report on the
merchant marine bill by a vote of 45
to 14.

The bill outlines for the United
States shipping board a general pol-
icy for sale of war-built ships to pri-
vate American interests insofar as it
is possible in the board's opinion to
find American purchasers.

Money Bills Remain.
Congress today still had two ap-
propriation bills on which action is
necessary before it adjourns tomor-
row afternoon.

Unless these bills are acted upon
before adjournment, President Wil-
son may call an extra session. In in-
forming congress yesterday that he
would interpose no objection to ad-
journment at this time, he stipulated
that all appropriation bills must be
passed.

The two appropriation bills are the
urgent deficiency bill and the Dis-
trict of Columbia bill.

The conference report is to come
up for adoption in both house and
senate today. The urgent deficiency
bill, which has been passed by the
house, must now be acted upon by the
senate.

The senate also has the bill in-
creasing pay of postal employees and
a resolution containing the present
expenditures investigation.

The senate has no intention at pres-
ent of acting on the soldiers' bonus
bill.

Repeal Wartime Laws
By a vote of 323 to 3, the house on
Thursday adopted a resolution to re-
peal all the wartime laws, excepting
the Lever food and fuel control acts
and the trading with the enemy act.
This includes the wartime prohibition
act.

The repeal resolution, which affects
sixty laws, now goes to the senate
with the expectation that it will be
acted upon finally before adjournment
Saturday. The three negative
votes were cast by Garrett and Simms
(Dem., Tenn.), and Welling (Dem.,
O.).

House democrats in joining the re-
publicans in support of the resolution
declared they were confident that
President Wilson would approve the
measure. Representative Connally,
(Tex.), one of the democratic speak-
ers, declared that the president was
first to suggest the repeal, and added
that practically every democrat is re-
ady to vote to override a veto if the
president disapproves of the measure.

While supporting the measure, the
democrats complained of the contin-
uance of the Lever act, and also as-
serted it was doubtful whether all
war legislation, especially the espionage
act, was affected by the repeal.

Food Control Upheld
Charging that republicans favored
repeal of the Lever act because of
its favor to certain interests as ef-
fective anti-strike legislation, Repre-
sentative Igoe (Mo.), sought vainly to
remove the exception preserving the
law. Representative Walsh (Rep.,
Mass.) in charge of the repeal mea-
sure, refused to consent to the elimi-
nation, declaring the Lever act was
necessary as the only law by which the
government can prevent profiteering in
foodstuffs, clothing and other neces-
saries.

**NAVAL SHIP FOUNDERS
IN MILWAUKEE HARBOR**

By United Press Leased Wire
Milwaukee.—The U. S. S. Hawk, a
naval training ship, riding at anchor
off the government pier in Lake Michi-
gan here, sprung two leaks in her
hold this morning and before the crew
could cope with the situation, the
vessel had settled two feet and was in
grave danger of sinking.

The Hawk, formerly owned by Mark
Hanna, was fitted up for a dispatch
boat for the government during the
Spanish-American war. It had been
docked in Detroit for many years
before it was brought to Milwaukee.
The Hawk arrived here about a week
ago from Chicago and was to be used
to stimulate recruiting for the naval
reserve forces.

The Hawk's crew is composed of a
limited number of naval reserve men
under Commander George W. Wel-
chett.

**BOOZE RUNNERS TO BE
TRIED IN U. S. COURT**

By United Press Leased Wire
Escanaba, Mich.—Carl Holos and
Christ Hanson, alleged "rum run-
ners," today are under \$1,000 bond
each awaiting action of the United
States district court, after being
bound over following arraignment be-
fore United States Commissioner
Frost.

The two were arrested when a
truck load of liquor was confiscated
by two prohibition agents, one of
whom later was arrested on three
charges, following a clash with state
officials here.

Women Demand 50-50 Voice In Inner Councils Of The G. O. P.

(By Raymond Clapper)
By United Press Leased Wire
Chicago.—Women will ask the re-
publican convention to give them full
recognition in inner councils of the
party on a fifty-fifty basis. Miss
Mary Garrett stated today.

Miss Hay, chairman of the women's
division, republican national execu-
tive committee will submit recom-
mendations for complete re-organiza-
tion of the party machine so women
will be included, in a report to be
filed, probably tomorrow with the
national committee.

"The women voters must be given
full recognition in the party on a
fifty-fifty basis," Miss Hay said.
"That is what they ought to have and
what we are going to ask."

"The women must not be kept on
the fringes of the organization and
used merely for decorative purposes."

After fighting 70 years for suffrage
they will not be satisfied with any ar-
rangement that seeks only to placate
if not actually exploit them. They
are watching and are anxious to ren-
der service to the party but they will
be quick to resent any four-flush-
ing by the party or any candidate.

"It is not fair to exclude women
from secret councils of the party.
They must be taken in on full-fault
and given their share of responsibil-
ity and authority."

Miss Hay said that women will con-
fine their efforts at the present con-
vention to getting permanent recog-
nition rather than to influence the
nominations or the platform. Women,
however, will insist on a strong suf-
frage plank and possibly a specific
request to states which have not rat-
ified the federal suffrage amendment
to speed action before the November
elections, she said.

WOOD AND JOHNSON HURL THREATS AT OTHER CANDIDATES

GENERAL SEES ENEMY PROPAGANDA
AND JOHNSON WARNS
AGAINST STEALING
DELEGATES

By United Press Leased Wire
Chicago.—"Enemy propaganda with-
out an atom of truth in it," was Gen-
eral Leonard Wood's comment today
on reports originating here that he
had "fired" Colonel William Cooper
Procter as chairman of his campaign
committee and had put Frank H.
Hitchcock in sole charge of his cam-
paign.

"A change in the management of
the campaign has not even been con-
sidered," continued Wood.

"The whole business is enemy
propaganda intended to cause dissen-
sion and distrust. Colonel Procter is
chairman of the campaign commit-
tee and will continue right through."

Wood said all he wants from his
opponents is "fair play and no favors."
He declared that when the source
of the "propaganda" became ap-
parent, it would help, not harm
him. He declined to fix responsibility
for the propaganda.

Senator Hiram Johnson told call-
ers at his headquarters today that he
is "tickled to pieces with the situa-
tion."

Johnson said the reception he got
on his arrival here yesterday was
typical of the response all over the
country, not to an individual but to
the thing I have been preaching for
a year.

A treaty plank embodying John-
son's ideas has been drawn for pre-
sentation to the republican convention,
Johnson said. He would not discuss
details of the plank for the present, he
added.

"But wherever I go, I hear one ex-
pression—that is, that if the party
and its candidates take firm, fearless
stand on this issue, there is no ques-
tion as to the outcome."

Johnson issued a warning to his
opponents not to try to "appropriate"
any of the delegates instructed for
him in presidential preference pri-
maries.

"I have heard reports that efforts
were being made to undermine me in
Michigan, Nebraska and elsewhere.
But I will have all those delegates. If
anybody tries to appropriate any of
them, that will be old-timed crooked
politics and as I won't play that
kind of game, I assume my opponents
won't either. If anybody does, I
shall take occasion to make my views
of such men and methods clear."

**IRISH QUIET AS 1,000
BRITISH TROOPS LAND**

By United Press Leased Wire
London.—The battleships War-
spit and Valiant this morning were
off the Irish coast with one thousand
royal marines on board. It was ex-
pected the troops would be landed to-
day, when the battleships would re-
turn immediately to Devonport and
embark on a second trip to Ireland
with a thousand soldiers.

The Irish situation was compara-
tively quiet last night.

Lloyd George in a conference with
a deputation of officials of the Na-
tional Union of Railwaymen, warned
that the government would not toler-
ate the embargo on munitions.

was imposed.

POLK RESIGNS AS UNDER-SECRETARY IN STATE DEPT.

CONDITION OF HEALTH AND FI-
NANCIAL CONSIDERATIONS
COMPEL RETIREMENT
OF OFFICIAL

By United Press Leased Wire
Washington.—Under-Secretary of
State Franklin L. Polk has tendered
his resignation to President Wilson
and the president has accepted it, it
was announced at the White House
today.

Polk's resignation came as no sur-
prise. It had been known for some
time that he wished to resign because
of poor health and financial consider-
ation.

His resignation is effective June
15.

"The argument of necessity on ac-
count of your health in the matter of
your retirement is one which I am
stopped from answering or combat-
ing," President Wilson's letter to
Polk stated.

"I feel that I have in conscience
and warm friendship no choice but to
accept your resignation, though I do
so with the utmost reluctance and
wish again to express the admiration
I have felt for the devoted and intel-
ligent way in which you have per-
formed your duties in the depart-
ment."

"We shall all miss you very sadly
and the public service will be poorer
in account of your departure."

WILSON ANNOUNCES MINER WAGE BOARD

THREE MEN REPRESENTING PUB-
LIC, MINERS AND OPERA-
TORS SELECTED BY
PRESIDENT

By United Press Leased Wire
Washington.—President Wilson to-
day announced the appointment of a
commission to arbitrate wage differ-
ences between anthracite coal miners
and operators.

The members are: William O.
Thompson, Columbus, Ohio; N. J.
Ferry, of McAdoo, Pa.; William L.
Connell, Scranton, Pa.

Thompson, president of Ohio State
University, is the representative of
the public on the commission; Ferry,
a member of the executive board of
the United Mine Workers of America,
represents the miners, and Connell,
an independent coal operator, the op-
erators.

The president announced the ap-
pointment of the commission in a
lengthy proclamation, reviewing the
history of the wage difficulties.

The president said that the com-
mission's decision which is to be
made in sixty days, if possible, will
be made "on the basis of a new agree-
ment between the anthracite opera-
tors and miners in such manner as
the commission may determine."

Any wage increase granted will be
retro-active from April 1, 1920.

Mrs. Catherine Coughlin, who worked
as a servant in the Coughlins was
taken to the Norristown jail. She
was held on suspicion.

ENTIRE FIELD OF CANDIDATES WARS ON CALIFORNIAN

WOOD AND LOWDEN PLAN COIN-
TER-ATTACK ON JOHNSON'S
SPECTACULAR CAM-
PAIGN METHODS

LONG BATTLE IS EXPECTED

Record Number of Ballots Predicted
Before Nomination is Assured—
Hoover's Name May be With-
held Until a Tie
Threatens

(By Don E. Chamberlain)
By United Press Leased Wire
Chicago.—It was the field against
Senator Johnson in the republican
pre-convention presidential race today.
The Californian coming into the arena
at a time when the booms of his lead-
ing opponents were drifting somewhat
astray for the moment, gave him at
least a psychological advantage.

In the headquarters of General
Wood and Governor Lowden there was
a distinct tendency to begin a counter-
attack on the senator.

Lowden, who has been much more
under the weather than had been gen-
erally supposed, will inaugurate con-
ferences with newspapermen, council
of war with his advisers and delegates
within the next few days.

May Print Newspapers
General Wood is understood to be
planning to get out a newspaper daily
in his behalf. This same proposition
is also being considered by Herbert
Hoover.

Announcement was made that Con-
gressman William Rodenberg, of Illi-
nois, is to nominate Lowden. At Ho-
over's headquarters, it was stated he
might not be nominated at the outset
but his friends would hold off their
moves until a deadlock was reached in
the convention.

Everybody is watching Johnson's
moves. He will soon be joined by vir-
tually all of those in the United States
senate who back his stand on the
league of nations. These he will have
conduct the active fighting before the
resolutions committee and he will not
go personally before the committee
unless he deems it necessary.

"I do not believe it will be neces-
sary," Johnson said today.

Ready for Fight
"I believe there is no doubt we will
win our way in demanding a clear-
cut resolution opposed to the league
as it is now drawn. There may be a
fight, however, and if so, we will be
ready."

Just how far the money probe at
Washington has reacted against the
two leading candidates—Wood and
Lowden—will not be determined for
several days when the delegates from
the different states begin to arrive in
large numbers.

At Lowden headquarters every
confidence was expressed today that
the storm had been terminated with
the governor's statement repudiating
the Missouri delegates who received
money. Fred E. Sterling, one of
Lowden's company directors, said to-
day that "if Lowden can not win the
nomination squarely, he does not
want it. He has demonstrated this
in his action laying all of his cards
face up on the table at Washington."

Look For Long Fight
Out of the confused situation, it
seemed certain that the nomination
will come only after a record num-
ber of ballots. In the past the repub-
lican nominee usually has been named
on the first ballot. In 1916, it
required three ballots before Hughes
received a sufficient number to win.
This year few predict that there will
be a material break before the third
ballot and then the final swing, they
think will not come for some ballots
later.

Talk of "dark horses" has grown
with the coming of Johnson. Many
of the political leaders feel that if
Johnson succeeds in eliminating
Wood and Lowden, the forces of
these candidates will turn against
the Californian and demand some
other man instead of the one who
has developed the strongest pressure
against their respective booms.

More Candidates Arrive
Total number of candidates here
is expected to reach five by Satur-
day.

Lowden, Wood and Johnson are
already on the scene. Senator Miles
Poindexter, of Washington, is ex-
pected here today. With him will
come former Senator Bourne, of Ore-
gon. Senator Warren G. Harding, of
Ohio, is due Saturday.

Congress' failure to finish its busi-
ness yesterday detained Harding.

**GAMBLERS PLACE EVEN
MONEY ON JOHNSON**

By United Press Leased Wire
New York.—Senator Hiram John-
son was favored for the republican
nomination in betting in Wall street
today. Even money was being wagered
that Johnson would be the choice
of the convention. So far, only
amounts ranging from \$100 to \$500
were reported as being bet.

Odds on General Leonard Wood's
chances for nomination were reported
as two to one against his selection.
Eight to five was quoted against
Lowden's nomination; 4 to 1
against Hoover, and 15 to 1 against
Coolidge.

Dark horses found takers at odds
ranging from 10 to 1, to 15 to 1.

WOOD'S CAMPAIGN FUND IS NEARING \$1,500,000 MARK

EASTERN TREASURER OF WOOD

OF A \$200,000
COLLECTION

SPENT \$280,000 IN EAST

Immense Contributions Are Reported
by Horace Stebbins—Elihu
Root On New York
"Ways and Means
Committee"

By United Press Leased Wire
Washington, D. C.—The senate cam-
paign expenditures investigating com-
mittee today was told of an addition-
al fund of more than \$200,000 raised
for Major General Wood's presiden-
tial campaign.

The Wood fund has been placed at
approximately \$1,180,000 by A. A.
Sprague, national treasurer of the
Wood campaign. Today Horace Stebbins,
eastern treasurer of the Wood
campaign and also connected with the
Leonard Wood League, told of other
collections and disbursements about
which he indicated Sprague did not
know.

Some of Stebbins' figures overlapped those given by Sprague and the
committee had difficulty in separating
them in absence of Stebbins' exact
records.

Senator Pomerene asked if the total
Stebbins accounted for would not
increase the fund collected for Wood
by \$228,494.40.

"I think so," Stebbins said.

Held Weekly Meetings
Stebbins told of weekly luncheons
of the "ways and means committee" of
the Wood campaign to consider the
matter of raising money. Elihu Root
was on this committee, he said.

Stebbins could not be located by
the committee until a message was
received from him yesterday. He in-
sisted on giving an explanation of his
disappearance and protested "the per-
secution" of his family by committee
sibphonia services.

Stebbins said money received by
him included \$100,000 from William
Loeb, from February 20 to May 17;
from Chicago headquarters, \$77,490;
from the New York "ways and means
committee," \$10,000; from 1800 sub-
scribers, \$21,500; Ambrose Monell,
\$12,000 on February 16.

Stebbins stated his total disburse-
ments "as around \$438,000," of which
approximately \$156,000 was spent in
his capacity of treasurer of the Leon-
ard Wood League and about \$280,000
expended in capacity of eastern treas-
urer of the Wood campaign.

Members of the New York "ways
and means committee," Stebbins said,
included Harold M. Goodrich, of the
Goodrich Tire Company; Elihu Root;
Harold B. Clark, banker; Archibald
G. Thatcher; L. G. Morgan; Dean
Sage, lawyer, and Ambrose Monell,
International Nickel Company.

**SEVERSON TAX BILL IS
KILLED BY GOVERNOR**

By United Press Leased Wire
Madison.—Governor E. L. Philipp to-
day sent the Severson sur-tax bill,
providing funds to meet salary in-
creases granted university and normal
school educators, to its death. The
executive will call a meeting of the
emergency committee to vote money now
in general state funds to meet the pay-
ments, it is said.

The governor's message vetoing the
Severson measure was received by the
legislature this afternoon. The Severson
bill was the only piece of legisla-
tion enacted by the special session
that failed to receive the signature of
the executive.

"The Severson bill proposes to es-
tablish a new policy in taxation in
the state of Wisconsin by placing a
special tax upon the income taxpay-
ers for a specific purpose," Philipp
informed the legislature.

With only a handful of members in
either house, no attempt will be made
to carry the bill over the veto. Final
adjournment of the special session is
expected late today.

**FRIENDS STARE AS
JOHNSON ANNOUNCES
HIS MIDDLE NAME**

By United Press Leased Wire
Chicago.—Bright Chicagoans, unaware that Senator
Hiram Johnson listed a middle
name among his possessions,
were started today when the
huge political sign of the sen-
ator screamed this message to the
world:
"Mr. president, Hiram W.

The "W" obliterated itself like
a clean shave in a flap joint. It
stands for "Warren."
Friends who had been un-
aware of that division point in
their candidate's name, regret-
fully withdrew him from the
list of twenty-seven presidents
who had or used only two
names.

CUT WORM THREATENS
COUNTY CORN CROP

Farmer are experiencing trouble with their corn this year because of the reappearance of the cut worm. It is said that as fast as the corn sprouts, the young shoots are eaten away. Some farmers have even found it necessary to replant portions of their fields. The trouble is said to be less serious than last summer, however.

Some of the seed corn has also been found defective this spring and far-

mers are out buying up a new supply regardless of price. They all insist on home grown corn.

Contributions to the St. Elizabeth hospital fund are still being received, according to A. J. McKay, one of the leaders in the recent successful campaign. Slightly more than \$2,000 has been pledged since the close of the drive. It was announced this morning. Several prospective contributors are still to be solicited, it is said.

RIPON COLLEGE WINS
PRIZE FOR LATIN

MILWAUKEE DOWNER GIRL RECEIVES KIRCHNER PRIZE OF \$250—LAWRENCE TRIUMPHS.

The Wisconsin Latin League awarded the Kirchner prize of \$250 and the Ellsworth David Wright gold medal to Miss Helen Hoppin of Milwaukee Downer, winner of first place in the Latin League contest held at Madison April 30. Second prize and the Wright silver medal went to Miss Mabel Arbuthnot of Milton, and the bronze medal for third place to Miss Nina Bradley of Ripon.

First honorable mention was given to Miss Grace Norton, Milwaukee Downer, and second honorable mention to Merton Leah, Priestly cup, awarded to the college whose three highest contestants total the highest score, goes to Ripon. This is the third successive time Ripon has won the cup, which entitles her to permanent possession. Lawrence is already in possession of one of the cups. The decision was announced by Dr. A. H. Weston, head of the Latin Department of Lawrence college, who is secretary of the league.

ventions were attended by about 1,000 people and were among the most successful ever held. The 1921 meeting is to be held in Ashland.

Rebekahs were represented by Mrs. William J. Martin and Mrs. Ralph Gibson. Mrs. Lillian Rummels, formerly a state officer, also attended the meeting.

Odd Fellow delegates were the Rev. Z. H. Smith and Malon Peterson.

Mr. and Mrs. Rentler of Milwaukee, are visiting relatives here.

John E. Wissman and William Longworth of the First National bank are enjoying a week's vacation at Milwaukee.

Stomach Smaller

"My much distended stomach is greatly reduced. Doctors wanted to operate and tap my stomach, but I happened to see a newspaper ad of May's Wonderful Remedy and after taking 3 doses I have had no more distress or bloating and am eating things I have not dared to eat for 6 years. I am confident your medicine will cure me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. The position was recently vacated by Dr. Lester B. Rogers who has been spending the past year on a leave of absence. Lee C. Rasey, who was appointed principal of Appleton high school, had charge of the department during his absence.

BAPTISTS TO MEET IN
ALLENVILLE NEXT WEEK

Several members of First Baptist church will attend the annual meeting of the Winnebago Baptist Association in the Allenville church, June 7 and 8. Local delegates will take the street cars through Neenah to Erdman's corners where they will be met by automobiles which will convey them to the church. Entertainment will be provided for the two days.

Among the most prominent speakers will be Dr. D. W. Hulbert of Milwaukee, and Dr. Charles Boyd. Several men from Green Bay, Oshkosh and Fond du Lac will also deliver addresses.

BAPTIST CHILDREN TO

FOND DU LAC PYTHIANS
EXEMPLIFY WORK HERE

Seventy-five Pythians from the New London and Fond du Lac lodges were entertained by local knights at Castle hall Thursday evening. The Fond du Lac team exemplified third rank work to a class of three candidates in splendid fashion. The meeting was largely attended by local knights. The visitors came here in automobiles and were royally entertained while guests of the local lodge.

Cole Aero-EIGHT

BALANCED TO ZERO

What gives the Aero-EIGHT its 15,000 miles on tires and causes its 80-horsepower engine to require so little fuel?

The achievement of Cole engineers in coupling such high tire mileage and striking economy of operation with such a wealth of power and performance ability is due, primarily, to the fact that the Aero-EIGHT is balanced to zero.

All units of weight are uniformly distributed. Perfect equilibrium is maintained at all times. Wear is apportioned evenly; no single part is subjected to a greater strain than any other; and every ounce of energy, as well as every unit employed, is given full, free play.

SMALLPOX RAGING IN TOWNS NEAR HERE

APPLETON MAY SEVER COMMUNICATION WITH GREENVILLE, MACKVILLE AND GRAND CHUTE.

"Greenville, Mackville and Grand Chute are becoming peppered with smallpox," said Dr. H. E. Ellsworth yesterday. "and if conditions get much worse all communication between those places and Appleton will be temporarily severed." The health officer is very much agitated over the rapidity with which the disease is spreading in that part of the county and said it is almost useless to try to stamp out the disease in Appleton

without getting at the source. The health officers of the towns are unable to control it for the reason that only a small portion of the cases are reported to them.

BIG CROWD AT FIRST WARD GRADUATION

FIFTY-FIVE PUPILS RECEIVE DIPLOMAS—EXCELLENT PROGRAM PRESENTED BY CHILDREN.

Fifty-five pupils were given diplomas at the graduation exercises Thursday evening at the First ward school. There was a large attendance of parents and friends and an attractive program was given.

The opening number was a selection by the school orchestra. W. Beverly Murphy delivered the salutatory address. Declarations were given by Miss Norma Burns on "The Progress of the Century," and Bert Fisher on "The Attitude of Manly Life." Two essays, "The Boy Scout Movement" by Richard Neller, and "The Camp Fire Girls" by Gladys Buxton, were read. Presentation of the class day memorial was made by Miss Mary Thom, and the response given by Clarence Horn. The valedictory was given by Miss Bessie Munger, and Henry E. Polley, principal, presented the diplomas.

Musical numbers included two songs by the class; a quartet number, "On Venice Waters," by Bessie Munger, Annette Brigham, Jane Thomas and Dorothy Ralph, and a violin duet by Burton Manser and Eugene Cole.

NEW PAPERMILL NEAR DESTRUCTION BY FIRE

Several thousand dollars loss was suffered Wednesday by the new Peshigo Pulp and Paper company, in which several Appleton people are interested, as a result of a fire which threatened to wipe out a large part of the village. The damage is estimated at about \$10,000.

The blaze started in an old barn and spread with great rapidity. When it was seen that the new papermill would be threatened the Marinette fire department was called for. The Marinette men made a record run to the village and soon had the blaze under control.

Much papermill machinery stored in an old planing mill near the paper plant was destroyed. Several large tanks for the mill also were burned.

A NATIONAL DISGRACE WHICH MUST BE RECTIFIED

In line with, and to an even worse similar degree than the school teachers, we find the employees of the United States postoffice grossly underpaid. As the government of the United States now conducts the postal department it is an inhuman institution. Postal employees are among the most faithful, competent and deserving in the country, yet they are subjected to salaries and conditions which are degrading. They work night and day, often in unwholesome quarters, in all kinds of weather and under severe strain. Their minds are crowded with the endless details of an exacting system, yet if they are absent from service on account of sickness they are docked. There is no allowance for burial, nothing for the family, no matter how many years they have contributed to the public.

Letter carriers are converted into pack animals, with burdens often weighing sixty to eighty pounds, and carry their loads through rain and blizzard, burning heat and stinging cold. The highest salary they can earn, after years of smaller pay, is less than \$32 a week. The highest salary paid the "big four" superintendents at the head of the four main departments of the New York postoffice, the greatest business concern of its kind in the world which turns back to the government enormous profits, is \$3360 a year, or less than \$65 a week and not one of these men attained his position with less than 27 years of service. Clerks in the larger postoffices receive, after years of service, an average of about \$4 a day, the price now governing for common labor. Longshoremen, window cleaners and drivers of milk wagons receive more in New York than the highest priced postal employees.

In the smaller cities the salaries are on a par with or less than the lowest unskilled labor. The United States government is the employer of its 280,000 men and women engaged in the postal service. The American people constitute the American government; they are, in fact, responsible for the salaries paid the postal employees. What a commentary upon this over-rich nation as an employer! It is a public disgrace which ought to fill us with shame and indignation. The neglect of the postoffice department on the human side, while congress has been wasting money in the most reckless expenditures imaginable, is a scandal which must forthwith be rectified. There have in recent years been many complaints about the character of the postal service. It is a wonder that we have a postal service at all, crippled as it has been by wholesale resignations and the slave-like conditions imposed upon those who have remained. The postoffice department is and ought to be on the verge of demoralization because of the shameful treatment of the thousands of employees who have devoted their lives to its operation, and who have been ground down to a state of dependency and hopelessness found in no other class of employment in the United States.

A commission which has been investigating the subject has recommended a revision of salaries which is entirely inadequate to the needs of the employees or to what they deserve. It is very much in conformance with the policy of economy which threatens to wreck the postoffice department. It is high time that congress took this matter in hand and redeemed not only itself but the American people as well by putting into immediate effect laws and appropriations which will pay postal employees what they ought to be paid, commensurate with salaries in commercial and professional fields and accompanied by conditions which are elevating. It is an imperative national need as well as an urgent act of justice.

WHAT HEALTH WORK CAN DO

The public as well as students of health and life conservation should be greatly interested in a recent report of a large industrial life insurance company that the number of deaths per thousand of its policy holders is considerably less than it is per thousand of the people at large. This is in spite of the fact that there is little selection of their policy holders by medical examinations of the type employed by ordinary life insurance companies.

The company credits a considerable proportion of its success in reducing the number of deaths to its persistent campaign of education covering almost every phase of sickness and the means of curing and preventing it. Another factor is the service to policy holders of visiting nurses who are credited with reducing death and even sickness by timely aid and personal advice and suggestion.

The company claims a general reduction in its death rates of 18 per cent between 1911 and 1917 as against federal statistics of a one per cent increase among the general population for the same period. The improvement among policy holders as compared with the general population is 26 per cent for tuberculosis; 33 per cent for typhoid; 35 per cent for children's diseases; 10 per cent for diseases incidental to childbearing.

Throughout Wisconsin there has been a very intelligent willingness to contribute privately and to appropriate public funds to begin to do for all people what this company has done for its policy holders. It is comparatively new work for the public, and conclusive proofs of its full value are not yet available. But neither were they in the instance of the insurance company until a sufficient amount of time had passed to permit judgment of accumulated results.

Nobody expects a fruit tree to bear until it reaches the bearing age. Then we expect it to increase steadily for many years. The tree of public health work bears some fruit at once. Only now, however, are we beginning to get a measure as to quantity. The figures cited are worthy of study by all who are interested in improving their own and their neighbor's health, and in promoting the conservation and betterment of life.

WASTE OF TIME AND MONEY

In yesterday's mail the Post-Crescent received thirty-eight letters from all parts of the country containing material and requests for free publicity. These letters weighed one pound and five ounces, and at the present price of paper represented approximately twenty cents in paper alone. About half of them came first-class mail, so that they represented an expense to the senders of seventy-seven cents, exclusive of clerical help and the salary of the publicity agent.

These letters came from a wide variety of sources desiring publicity. There was material from the American railway executives, from the press bureaus of the political parties, army and navy, Near East relief, financial interests, moving picture corporations, all sorts of industrial concerns, universities and colleges, trade associations, churches, etc. They are representative of the daily production of this material showered upon newspapers, and to a less extent upon other objects of affection.

All of this effort to gain free publicity is a sheer waste of time and money. It is senseless, useless, futile propaganda. Every envelope of this character is deposited in the waste basket without being opened. It is inconceivable that any newspaper in the country gives attention or space to any of it. When we estimate the cost of supplying thousands of newspapers daily or weekly with this rubbish we find that it runs into large sums. Doubtless several million dollars are spent annually to secure free publicity, and so far as results are concerned the money might just as well be dumped into Lake Michigan.

This stream of propaganda has reached proportions where it is a detriment to everybody concerned. It is a burden to the United States mails and a nuisance to those who receive it. Millions of dollars employed to keep it going could be spent to infinitely better advantage in other ways with a positive showing of results. Associations and chambers of commerce throughout the country would be performing a genuine service to business, charitable institutions and other interests engaged in this wasteful practice by bringing the facts to the attention of their memberships and by recommending action upon it through the Chamber of Commerce of the United States.

A SAFE VACATION—1

Seeking Health
Among the numerous dangers of being alive is the danger of picking up typhoid infection while on the quest of health. In the recent past returned vacationists down with typhoid kept many a physician from getting away for his autumn vacation. But typhoid fever, being strictly a filth disease, prevailing in direct ratio with the filthiness of the people of the community, is becoming less and less common. Even in the more enlightened districts of the unlightened South you will now find screens on the windows and a certain suspicion among the populace that flies around the place betray filthy surroundings.

Cook and other food handlers ought to be certified in good summer resorts. The guest has a right to know that those who handle and serve his food are not typhoid carriers. If this seems a little far-fetched at first blush, it is not one whit more visionary than certified milk, which is an attractive detail of many good resorts. Without certification by the health authorities, how is the guest to know that the waiter or cook has not had typhoid fever or is not still eliminating typhoid bacilli and possibly contaminating the food therewith? This is the only assurance of safety the guest has, unless he is protected against typhoid infection by anti-typhoid vaccination or prophylaxis.

Flies, conveying unmentionable filth direct to the food on the table from their favorite feeding and breeding places and human food handlers unconsciously contaminating the food they prepare and serve, are the two chief sources of typhoid epidemics today. Water is seldom responsible. But if circumstances force the vacationist to drink water from a doubtful source, it may be rendered safe by dissolving in each five gallons of water and allowing to stand at least half an hour before drinking, one five-grain capsule of fresh chlorinated lime. This does not effect the taste or potability of the water.

If the milk is not certified it may be rendered safe by pasteurizing at home or in camp. This is done by heating the milk up to 140 degrees Fahrenheit and holding at that temperature 30 minutes, then cooling. This destroys practically all disease germs.

Fruit or vegetables eaten uncooked should be very thoroughly washed, even though they seem clean when delivered; this is to remove not only possible pollution with typhoid germs, but also the invisible eggs of worms.

It should no longer be necessary to caution the camper that water which is perfectly clear, perfectly tasteless, and perfectly cold, is not necessarily free from pollution from neighboring outhouse, cesspool or ground drain.

QUESTIONS AND ANSWERS

Callus

May I ask you to kindly republish a formula for something to relieve a callus on the sole of the foot? A friend told me she used something you suggested in your column, and it proved extremely satisfactory. The callus I have is very painful at times, on the ball of the foot. (Mrs. R. C.)

ANSWER—Paint the callus each night, preferably after soaking the foot twenty minutes in hot water and drying thoroughly, with this solution:

Salicylic acid 30 grains

Flexible collodion 1/2 ounce

This quickly dries, leaving a film over the area painted. In a week or ten days the callus will be softened and easily removable. Of course, like corns, it will return unless you adopt more hygienic shoes.

Rupture

1. Is rupture a cause of sterility? 2. Is there any other cure than operation for rupture in a man 32 years old? (M. J.)

ANSWER—1. No. 2. No.

A Good Emetic

I have been learning a little first aid and I understand that in case of poisoning you should make the victim vomit. Would like to know what should be given to do this. (E. R.)

ANSWER—A good emetic—you can't keep a good emetic down. Teaspoonful or two of common salt dissolved in a glassful or two of common water at a nice tepid temperature is one good emetic. Teaspoonful of mustard flour given in a glass of water; or a generous pinch of alum in a few spoonfuls of water; or a grain of copper sulphate in a spoonful of water.

Extraordinary Wife

I have finally persuaded my husband to Karell. He weighs 225 pounds, 42 years old, weighed 145 when we were married and is five feet and 8 1/2 inches tall. Please give me the necessary details. (Mrs. L. G.)

ANSWER—Twenty-two thousand, one hundred and six wives had written in for something to fatten up friend husband, the general desideratum being for a man with a substantial middle and a good general background, whereby the wife may look graceful and lithe by comparison, you understand. You are the first wife who has ever asked me to help her make her husband less. However, if you really mean it, send the indispensable S. A. E. and I will mail you the data to apply to the poor fellow.

TWENTY-FIVE YEARS AGO

Friday, June 7, 1895

T. A. Willy was in Milwaukee on business. Mrs. Carl Mathie of Wausau was visiting her parents, Mr. and Mrs. Theodore Briggs. Thomas Butler of the town of Center fell dead from heart trouble while at the office of registrar of deeds at the courthouse. He was seventy years old.

The large elevator of the Wisconsin Malt and Grain company was totally destroyed by fire the night previous. The loss was estimated at \$50,000.

The new officers of the M. R. Freil Gun club were: President, A. Wiekert; vice president, Henry Bergman; secretary, Dr. Lucky; treasurer, M. R. Freil; captain, Willis Babb.

The graduating exercises of the Ryan high school were held the night previous. The class consisted of Agnes Monaghan, Tillie Commenz, Catherine Brown, Emma Voge, Evelyn Christensen, Robert Kottend, Lois Johnson, Irene Whitman, Jennie Henry, Joseph Bartman, Ida Krantzsch, Eugenia Voigt and John Bartman.

Edward Peterson, formerly of Appleton, was appointed clerk of the court of Langlade county by Judge John Goodland, succeeding Mr. Wall. Charles Kure narrowly escaped death by his clothing getting caught in the knuckle of a tumbling rod which whirled him around the shaft. He was superintending the work of deepening the race near the old Pride pulp mill at the time.

At Seymour Thursday Peter Tubbs, chairman of the county board, attempted to drive across the track ahead of a moving train. The locomotive caught the rear wheels of the buggy, producing the vehicle in wreckage. Mr. Tubbs and the horse escaped unhurt.

Confessions of a Bride

THE BOOK OF ANN

Chrys Drops Ouija and Takes Up the Philosophy of Tao

I suppose that women philander as well as men, but it is a positive fact that most of the women I know philander around after new ideas rather than new emotional experiences.

Our Chrys is forever in search of some new "ism." She has dropped her ouija board nonsense and, with daddy, we joined in thanksgiving to all the gods that be.

But we spoke too soon. Chrys has taken up a Chinese "ism." Lots of women are doing it, she says. She went out in search of the truth, it appears, she resolved to follow the truth, wherever it might lead her. So far she has only had to travel back as far as the sixteenth century B. C., and around the globe as far as China.

Chrys has taken up Taoism! She wears the oddest silver ring, an image which reaches from her knuckle to her jewelry, to show off that grotesque image the better!

From the doctrine of Tao, Chrys has got some new notion about "non-assertion." Daddy thinks she is tired out, this idea of "not acting" is so unlike her usual line of thought.

But Chrys says that according to Taoism, one is not to be lazy, one is simply to be humble and selfless. I judge you just let things happen to you. You don't go forth to meet trouble and resist it. It is a sort of futurist religion, I should say.

Sometimes I wonder what can be the matter with women nowadays. As soon as they get the intellectual germ started, they develop such queer philosophies. And according to philosophies, they don't have to exert themselves, they don't have to exert themselves. Maybe that is the charm? They let the other person do it—even the thinking! Maybe they are selfless, but I call them one idea about love that interested me very much.

She read it aloud from her little Chinese translation, or free version of Tao. She thought Mrs. Best would like it. Maybe it would still her heartache.

"What of friendship? What of love?" was the question put to the Chinese philosopher about 2500 years ago.

"These are the best things in life, be very far. But one day you will know of them as little as the stream knows of its banks when it is lost in the endless ocean. Think not that I would teach you to banish love from your heart. Love what you love, and be not misled by the thought that love is a hindrance which holds you in bondage. To banish love from your heart would be a mad and earthly action. I say only, that love will one day vanish of itself, without your knowing it. I am speaking to you of the very highest things. Love is the highest of all, but for him who is absorbed into Tao, love is a thing past and forgotten."

Chrys put down her book and re-lapsed into meditation. But I didn't think she was absorbed into Tao. I knew she was thinking about her love for Jordan Spence. It certainly was not past and forgotten.

Spence had loved her madly, but had strongly objected to her ouija mania. For that, they had parted. I wondered if she thought he would accept ancient Chinese philosophy with better grace.

I didn't dare ask her, but I did venture to put a personal question to Ann's mother:

"Mrs. Best!" I exclaimed. "Pardon me. But do you think it is possible from your own experience, is it possible for love to pass without your knowing it?"

Before she could reply, Chrys interrupted with:

"Mrs. Best! Are you willing to answer the question I put in that rotten rhyme before the men came in to tea?"

"Would I begin my romance again? No, my dear, I would not. If he and I could enter the land of beginning again, and abide there, I would say yes. But I am positive that if he and I had our lives to live over again we would make the same mistakes."

Then said myself to myself:

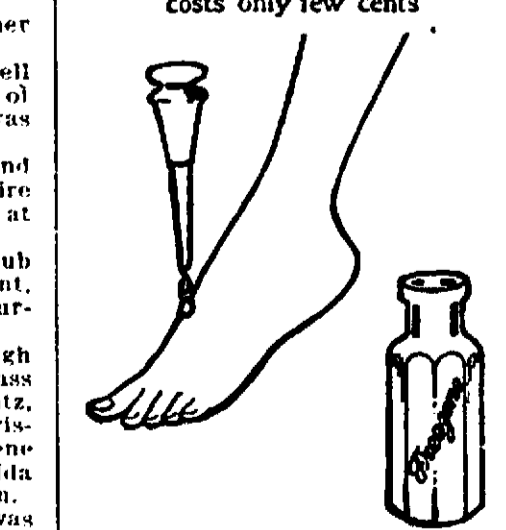

"If that is true, it must be vastly comfortable to arrive at a place where love is a thing past and forgotten."

G.O.P. Convention Snap-Shots

The Story of 16 Nominations

By A. H. VANDENBERG

Fifteenth Convention

The fifteenth annual Republican Convention was the most turbulent, the most spectacular, and the most tragic of any on the list. Early in the year lines were tightly drawn from coast to coast between adherents of President Taft, seeking a re-nomination, and adherents of Theodore Roosevelt, seeking to prevent this outcome. The battle for delegates raged violently in almost every state. As a result, out of 1078 seats in the Convention, 254 were under contest when the time came to make the temporary Convention roll.

The National Committee assembled in Chicago June 6, 1912, and heard these contests until June 15. The bitterness displayed in these hearings—accentuated by the presence of Roosevelt himself in Chicago—clearly prophesied the ultimate breach which occurred a week later. And when the National Committee assigned 235 of the 254 contested seats to Taft delegates, and only 19 to Roosevelt, the probability of breach became a certainty.

The Convention itself gathered in the Chicago Coliseum on Tuesday, June 18, 1912—the 97th anniversary of the battle of Waterloo! The initial skirmish between the forces of the two chief political gladiators came at once. The National Committee offered Elihu Root of New York as temporary chairman. The Roosevelt forces nominated Governor Francis E. McGovern of Wisconsin. After a spectacular 5-hour battle, Root won by a vote of 558 to 502, and five days later was made permanent chairman of the Convention.

The next day, an attempt by the Roosevelt forces to put upon the temporary roll the names of delegates rejected by the National Committee, was beaten by a vote of 564 to 510. By this time, the impossibility of pacific union between the two contending forces was so obvious that there was much talk of effort to agree upon a "dark horse," and the names of Governor Hughes of New York and Governor Hadley of Missouri were freely discussed. But the Convention was destined to go to its bitter conclusion along the lines originally drawn.

Two days were now consumed by the Committee on Credentials listening to arguments all over again in connection with the 254 contested seats—with the same net result previously recorded. But this time the

talk of a Roosevelt bolt was open and generally threatened. In the early morning hours of June 20, Roosevelt himself told his delegates "not to submit to a majority having no title in law or morals." The Taft forces and the National Committee, however, insisted from first to last that they were strictly within their rights and equities.

All of the preliminary skirmishing was finally done on Saturday morning, June 22, 1912. One of Roosevelt's leaders read a statement to the Convention from Roosevelt himself, stating: "I hope the men elected as Roosevelt delegates will decline to vote on any matter before the Convention."

Pursuant to this mandate, further war within the Convention itself subsided, and the Convention's work was quickly finished. Mr. Taft was re-nominated on a single ballot. He had 561 votes—21 more than necessary to nominate him. Roosevelt had 107 votes; Senator Cummins of Iowa, 17 votes; Senator La Follette of Wisconsin, 41 votes; Governor Hughes of New York, 2 votes.

There were 344 delegates who followed the Roosevelt instructions and did not vote. Immediately thereafter, Vice-President Sherman was re-nominated on a single ballot, and the Convention quickly adjourned.

That same night, the Progressive Party was born in the same city. Among the men prominent in 1920 Convention calculations who figured in the 1912 affair, are Senator Watson of Indiana, who was convention floor manager for Taft; Senator Harding of Ohio, who made Taft's nominating speech; Governor Henry J. Allen of Kansas, who presented Roosevelt's final statement to the Convention advising his delegates not to vote, and Senator Johnson of California, who was the head of the California delegation and active for Roosevelt from first to last, and who prominently participated in the birth of the new party.

Before the electoral college could meet, Vice-President Sherman died and the name of Dr. Nicholas Murray Butler, President of Columbia University of New York, was substituted by the National Committee. Dr. Butler also figures in 1920 prospects as a possible recipient of New York's preliminary convention votes.

I AM GLAD TO ENDORSE PE-RU-NA

Glad to Try Anything
"Three years ago my system was in a terribly run down condition and I was broken out all over my body. I began to be worried about my condition and I was glad to try anything which would relieve me. Peru-na was recommended to me as a fine blood remedy and tonic, and I of price. A few bottles changed my condition materially and in a short time I was all over my system. I owe my restoration to health and strength to Peru-na. I am glad to endorse it."

CAR SHORTAGE DELAYS CALUMET ROAD WORK

About one and one-third miles of the Hilbert-Hilton road has been graded by the Appleton Construction Co. crew. Four or five culverts are completed and about 700 cubic yards of material is on hand ready for use. The shortage of cars has made it impossible to obtain cement and there is also a scarcity of sand and gravel.

BIBLE SCHOOL OPENS SCHEDULE JULY 6

The faculty for the daily vacation Bible school is practically complete and will be announced within a few days. The school is to open July 6 and continue until July 30. Sessions will be held from 9 to 11:30 o'clock at the Y. M. C. A. and the Vocational school.

A feature will be the teaching of

pine needle work and sewing to the girls, and pine needle work and coping saw work to the boys. Registration is to start Sunday, June 13 and a fancy button is to be given each child who registers.

The Rev. George Richert of Brillion, was a business visitor here Thursday.

SCHNEIDER LOSES LEG FOLLOWING ACCIDENT

H. A. (Pat) Schneider, 839 Prospect street, this morning lost his left leg by amputation. The operation was performed at St. Elizabeth hospital where he is in a critical condition, suffering from injuries received in an automobile accident last Friday night. The leg was taken off just above the knee.

Schneider and several other men were in an automobile which crashed into a pole on Lake street. It was said the car was going at a high rate of speed and the driver ran into the pole to avoid hitting a train. Two other members of the party were slightly injured.

AGAIN POSTPONE TRIAL OF ALLEGED SPEEDERS

The action brought against Gordon Fish, Anton Wagner and Lawrence Stark, charged with speeding, which came up in municipal court this morning, was postponed another week on account of the illness of Anton Wagner, who was unable to appear.

YANKEES LOOK LIKE FLAG CONTENDERS

HEAVY HITTERS AND EXCEL- LENT PITCHERS GIVE NEW YORK TEAM FINE CHANCE

(By Henry L. Farrell)
 By United Press Local Wire
 New York, June 3.—Delegates pledged to
 the candidacy of Tris Speaker for the
 nomination as "miracle man of
 1920" are getting their feet ready to
 jump.

In large numbers they are bolting
 to those who made pre-season predic-
 tions for the New York Yankees.

A dynamic sweep down the stretch
 which has given them sixteen out of
 the last twenty games and nine in a
 row is making the annual candi-
 dacy of the Cleveland native sons
 look like a W. J. B.

By use of the talents that earned
 for them the early season sobriquet of
 "murderer's row," the Yankees
 have battered their way through the
 best pitching in the league to second
 place.

Headed by that demon clubber,
 Babe Ruth, the Yanks have a poten-
 tial home run in every line-up. They
 have the dynamic market of both
 leagues cornered and have assembled
 what is perhaps the greatest array
 of pitching and slugging power of
 the past decade.

There is no Walter Johnson, Al-
 exander or Williams among the pitch-
 ers, but Jack Quinn and Bob
 Shawkey can win a bunch of ball
 games. With such tremendous hit-
 ting they don't need pitching par-
 excellence.

The best pitchers in the league
 have fallen before the Yankee at-
 tack. Stan Coveleski and Claude
 Williams were knocked off a big win-
 ning streak and Walter Johnson has
 been beaten three times. They have
 knocked 14 pitchers out of the box,
 including Kinney, Penneck, Harper,
 Hoyt, Daus, Williams, Snyder, Er-
 ickson and others.

Freedom School Picnic
Preparations have been started for the annual school picnic, which will be given by the congregation of St. Peter's Evangelical Lutheran church of the town of Freedom, Sunday, June 13, in the park near the church.

Special services will be held in the church at 10:30 o'clock in the morning after which dinner will be served by ladies of the congregation. Music during the afternoon will be furnished by the Kaukauna band.

Farewell Social
Ernest Barker, scout master of Troop 3, was tendered a farewell social by the members of the troop Wednesday evening at First ward school. The event was also a reception for Arthur Vincent, who is to be Mr. Barker's successor. A social hour was enjoyed and refreshments served by the boys.

Danced in Kaukauna
Several Appleton couples were guests of the Kaukauna high school alumni at the dance given last evening in the Kaukauna auditorium. About a hundred couples attended. Music was furnished by Thompson's orchestra of Madison.

School Picnic
The closing of the Woodlawn school, town of Grand Chute, Tuesday will be celebrated with a picnic on the school grounds. Parents of the pupils have been invited to attend. Francis O'Hanlon is teacher of the school.

Weds at Shawano
The marriage of Harry Trettien of Appleton and Miss Mollie Fritz of Shawano took place at high noon Wednesday at the home of the bride's parents, Mr. and Mrs. C. C. Fritz, Shawano. The Rev. Mr. Kohlath performed the ceremony. They were attended by Adrian Ganzen and Miss Helen Fritz. The bride wore a gown of satin and georgette. The bridesmaid wore a gown of crepe de chene. A four-course wedding dinner was served following the ceremony.

The couple left on a honeymoon trip to Minnesota, by automobile. They will visit Minneapolis and will spend a week with the bride's sister at Pine Island. The tour will end with a trip

H. T. G. Club
The H. T. G. club met last evening with Miss Virginia Carley, Appleton street. The evening was pleasantly spent in playing five-hundred. Miss Cecil Kuehn won the prize. Dainty refreshments were served. The next meeting is to be held at the home of Miss Ruth Lacey, North Division street.

Eagle Ladies Party
Mrs. John Abendroth won first prize at the last open card party given by ladies of the Eagles at Eagle hall Wednesday afternoon. Ten tables were in play. Other prizes were won by Mrs. Joseph Schreiter and Mrs. John Dick.

Lady Eagles will be entertained at a banquet following a card party for members only next Wednesday afternoon. The dinner will be served about 5:30 o'clock.

K. C. Ladies Party
Mrs. Michael Garvey won first prize at the regular weekly card party for Knights of Columbus ladies at K. C. hall Thursday afternoon. Second prize was awarded to Mrs. Henry Marx. The party was poorly attended.

Shrine Officers Installed
Officers of Valley Shrine No. 10, White Shrine of Jerusalem, were installed following a banquet at South Masonic hall last evening. Mr. and Mrs. Clough of Shawano, assisted in the installation ceremonies. Mrs. Smith of Green Bay, rendered several solos.

Appears in Recital
Miss Gladys Wunderlich will appear in a senior song recital at Peabody hall at 8:30 o'clock this evening. Miss Ruth Schumacker, violinist, will assist.

DANCING TONIGHT AT WAVERLY.

COLLEGE MUSICIANS

SCORE HIT IN CONCERT

One of the finest musical events of the year was the joint concert presented Wednesday night at the Lawrence Memorial chapel. The program was given jointly by Lawrence Men's Glee club, Girl's Glee Club, Lawrence Conservatory orchestra and Apollo Glee club.

Organizations which took part represent some of the best musical talent in the college and the program evidenced the fact. High quality and variety were the characteristics. The Apollo Glee club scored the biggest hit of the evening with "An act of up-to-date grand opera." The glee club is composed of the eight men of the Men's Glee club who leave this week to start on their chautauqua tour.

ESCAPE ONE CHARGE TO FACE ANOTHER

John Westberg and George Prange, both of Neenah, said to have been implicated in the "hoose ring" broken up by Appleton police, were released from the charge of having burglarized the Schultz brothers' drug store in Neenah and immediately thereafter charged with attempting to break into the home of Mrs. Caroline Ehler, Neenah, when their cases were called in municipal court in Oshkosh. Their preliminary hearing on the new charge will be held June 8. The original case was dismissed on the motion of District Attorney Allen for Winnebago county.

MAKE CHANGES IN "Y" BASEMENT ARRANGEMENT

Several important changes are being made in the basement of the Y. M. C. A. building. The kitchen of the cafeteria is being increased in size about one-fourth in order to accommodate the increased patronage. The floor space used by the basement lockers is being reduced about one-half and a portion of it will be used as a social room for those using the billiard tables or blowing alleys. Under the new arrangement the basement clerk will be able to perform his duties without taking half the steps that are now necessary as his work will be mostly over one counter.

BIG K. C. CLASS TO BE INITIATED SUNDAY

Nine candidates were initiated in the Knights of Columbus at a meeting Thursday evening. Preparations were also discussed for initiation of a class of about 45 into the second and third degrees at Columbia hall Sunday afternoon. The initiation begins at two o'clock. Degree work is to be exemplified by an outside team, probably from Wausau. Officers of the local council have been appointed as a committee to make the necessary arrangements.

BUYS OFFICE BUILDING; CONVERTS IT INTO HOUSE

Charles Kelly, 551 Franklin street, who purchased the former office building of the Graef Manufacturing company, has just moved it to a vacant lot on Parkhurst street, a short distance beyond Second avenue, where he will convert it into a residence.

The condition of Raymond Dittmer, son of F. R. Dittmer, who submitted to an operation at St. Elizabeth hospital Tuesday, is gradually improving.

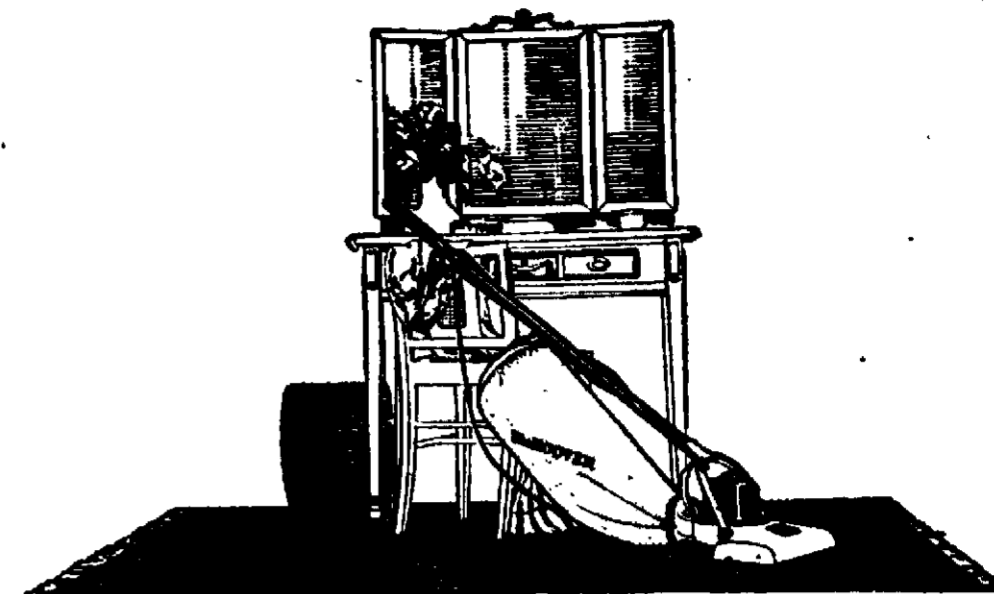

Paul O. Nyhus, farm service man for the First National bank, is in St. Paul attending the National Holstein Sale.

MOTHER GRAY'S POWDERS BENEFIT MANY CHILDREN

THE PETTIBONE-PEABODY Co.

The Hoover lifts the rug from the floor—flutters it upon a cushion of air, gently "beats" out its embedded grit, and so prolongs its life.

Pride in the appearance of one's home properly must include the rugs. And like all other beautiful things, rugs respond to frequent and right care with a longer lifetime of beauty. Three processes—beating, sweeping and suction cleaning—are vital to such care. Only The Hoover combines the three. It beats out the embedded grit. It sweeps up the stubbornest clinging litter. It suctions away the loosened dirt. And it is the largest selling electric cleaner in the world.

The HOOVER

IT BEATS... AS IT SWEEPS AS IT CLEANS

Pettibone's will gladly demonstrate The Hoover in your home or at their store, without obligation. Convenient terms if desired. Prompt consideration is advised, as the popularity of The Hoover makes it difficult to keep them in stock.

Are You Free From the Worries of a Laundress?

Wouldn't you like to be saved from a whole day of steamy, sudsy odor?

Let Pettibone's demonstrate the "Easy" Vacuum Electric Washer in your home. They will prove to you how easily you can do your family washing. Easy terms of payment.

Wizard Helps to Cleanliness

Among Wizard products you will find a host of conveniences for use in cleaning. Their uniformly high quality will recommend them to every housewife

Wizard Polish

A thoroughly scientific polish for furniture, woodwork and floors. Can be used on the finest finish. Will protect and preserve its beauty. Wizard Polish produces a hard, dry, brilliant luster, which does not show finger marks or streaks, is not gummy or sticky, and to which dust will not adhere.

GIRL IS INSULTED; FATHER SHOTS MAN

Kenosha, Wis.—Peter Mallinero, 40, is in the hospital with a bullet wound in his thigh and another in the groin. The police are looking for Mike De Bartoto, who disappeared after the shooting and who is charged with the assault. Marion Covelli told the police that he was walking down the street with a daughter of De Bartoto and that when they passed a corner where Mallinero was standing he made an insulting remark about the girl. Covelli later told the girl's father about the insult and then De Bartoto went out looking for Mallinero.

POLICEMAN RAID "PEP" SHOW; 200 ARE ARRESTED

By United Press Leased Wire
New York.—Two hundred and four operators, invited to a stag party, to see something full of "pep," were arrested in a Brooklyn hall when police objected because they were gathered around a young woman who had shed most of her clothes and was performing "Madame Salome's historical dance."

MRS. ALICE GRESHAM

MRS. ALICE GRESHAM DODD, mother of the first American soldier killed in France, who gives entire credit for recovery of her health to the well-known medicine Tanlac.

The following remarkable endorsement of Tanlac was given recently by Mrs. Alice Gresham Dodd, at the Gresham Memorial Home, Gavin Park, Evansville, Ind., which home was presented to her by the patriotic people of Indiana, as evidence of their appreciation of the services rendered to his country by her son, Corporal James B. Gresham, the first American soldier killed in France. Expressions of sympathy were received by the United States, and the newspapers of the country carried the story of the first "war mother."

The shock of her son's death resulted in the serious breakdown of Mrs. Dodd's health, but everyone will learn with interest and pleasure that she is now in splendid health again. When seen at her home recently she made the following statement, giving the entire credit for her recovery to the well-known medicine, Tanlac.
"After my dear boy's death, I had a general breakdown in health," said Mrs. Dodd. "At first it was just indigestion. My food used to upset me and I had to diet myself very carefully, which wasn't much hardship as I lost all desire to eat. Then I had an attack of rheumatism, with severe pains in my shoulders, back and arms. Sometimes I used to suffer a great deal, and my joints would get all swollen up and stiff. I was able to do very little about the house, and at times couldn't even cook a meal. I got very nervous and restless, and at night would lay awake for hours, and lost many a night's sleep as a consequence."

"A friend of mine had received a great deal of help from Tanlac, and it was she who advised me to try it. I am so glad I did for it proved the best medicine I have ever taken. It soon gave me a good appetite and seemed to settle my stomach so that I was no longer troubled with indigestion. I don't know what it is to have rheumatic pains now, the swelling and stiffness has all gone out of my joints and I am able to do the work of the house with the greatest ease. My nerves are now steady and strong. I sleep fine at night, and I feel better in health than ever before in my life. I shall always be grateful for what Tanlac has done for me, and shall recommend it every chance I get."

Tanlac is sold in Appleton by John E. Voigt; F. O. Brown, Shiocton; Dr. J. M. Sattler, Bear Creek, H. E. Abend, Dale.

OSTEOPATHS WIN CASE AGAINST MEDICAL BOARD

Madison.—The osteopaths of Wisconsin have finally won recognition through the supreme court that there is a distinction between the practice of medicine and surgery and osteopathy and surgery, according to a decision of the supreme court handed down today.

The state board of medical examiners have refused to give a graduate of the Chicago college an examination in surgery on the ground that he had not submitted evidence of having completed a two years' course in physics, chemistry, biology and German or French equivalent to a pre-medical course in the University of Wisconsin. The board held that the bill passed by the legislature contained the conjunction "or" but the bill signed by the governor had been changed to read "and." Even this defect had not specific bearing that there is a distinction between medicine and osteopathy and that while one must have the two years' pre-medical course before passing the examination to practice medicine and surgery, it is not required to pass that examination for osteopathy and surgery.

FORTY THREE STUDENTS ON RIPON HONOR ROLL

Ripon, Wis.—The honor roll in Ripon college contains 43 names, 11 of which are names of Ripon young people. To hold a place on the honor roll, an average of 93 or above must have been maintained for a whole quarter of a school year. The following were the Riponites whose scholarship attained that degree:
Lorraine Foat, 93; Helen Fehlandt, 93; La Verna Krause, 94; Margaret Maxwell, 94; Viola Schave, 94; Nina Bradley, 96; Mildred McConnell, 96; Philip Fehlandt, 95; Elmer Roeske, 93; Edward Steinbring, 93; Allan Wilson, 96.

THREE ARMED BOYS SCARE CONSTABLE; ARE ARRESTED

La Crosse, Wis.—Three boys, each 19 years of age, claiming to be farm hands, on their way to Montana in an automobile which they confessed was stolen at Harvard, Ill., were arrested here. All were armed with revolvers. They are William John Bonnar, Milwaukee; John Norris, Pekin, Ill.; and Fred Lawrence, Hebron, Ill. The boys were arrested just outside the city after they had frightened a town constable at Milledridge with their display of firearms.
Hammering one nail until it is driven home is better than aimlessly striking at a hundred.

FARM FOR SALE

120 acres, town of Ellington, about 100 acres under plow, balance in pasture and timber; good clay barn 60x60, 3/4 miles from Hortonville, near school and cheese factory; 2 story, 11 room residence, with cement floor basement; barn 34x60, all cemented, stanchions and drinking fountains, and machine shed, garage, hog house, etc. The following personal property goes with the place: 4 horses, 25 head of stock, about 10 hogs, chickens, etc., manure spreader, grain binder, corn binder, 10 horse power engine, 1/2 horse power engine, seeder, mower, rake, tedder, slough loader, plows, drags, spring tooth harrow, cultivator, 2 wagons, 2 sleighs, top buggy, surrey, milk wagon, corn husker, and other farm tools, implements, and machinery too numerous to mention.
This is one of the best bargains you can rest assured, in this part of the county, and anyone having any desire to go on a place of this kind, fully equipped, this surely should appeal to you. Price \$25,000, one-half down, balance on terms.

Two Appleton Mail Carriers Eligible To Receive Pensions

Two Appleton mail carriers, Albert J. Kroiss and John Brown, are eligible for a pension of \$60 a month under the Sterling-Leibach bill recently passed by congress. Kroiss has been in the postal service for over 32 years and Brown will complete a like period July 1.

The bill requires the retirement of postoffice or classified civil service employees at the age of 65 years. They are to be paid a pension based on the period of service and the basic salary for the last ten years. Employees who have served 15 years receive 30 percent of the basic salary, amounting to

from \$180 to \$360 a year. The amount increases up to the 30 year period, at which the pension is placed at 60 percent and the amount paid ranges from \$360 to \$720. Both of the Appleton men will be paid \$720 a year.

Provision is also made for pensioning the men who become disabled while active in the service. If an employee is still qualified for service at the age of 65, the head of the department is given the right to retain him for two year periods with the approval of the postoffice department at Washington, D. C. No employee can be retained more than ten years under this arrangement.

"GET BRYAN QUICK" TO BE SLOGAN WHEN DEMOCRATS MEET

WILSONIAN DEMOCRATS LAY PLANS TO OBLITERATE COM-MONER AT FRISCO CONVENTION.

Washington, D. C.—Take it from the Wilson democrats, who are rallying around the flag of administration loyalty—William Jennings Bryan has about as much chance at the San Francisco convention as an American has in Mexico.

"Get Bryan and get him quick," is the order that has gone out from the mobilized Wilson forces, who are determined to obliterate him. There is every indication that they have control of the convention machinery and the staff of officers are said to have the word from the commander in chief to let Bryan have both barrels, one loaded for his opposition to the president's treaty policy and the other for his insistence upon stirring up another fuss over the dead and gone demon rum.

Bryan to Be Squelched. Plans for the Bryan taking-off are known to have been the subject of grave discussion at the cabinet meeting today, with the president one of the interested participants. After the cabinet session, devoted, it is said, almost exclusively to politics and the issues involved, no admissions were made. But when the word of what happened had been passed along from the staff to the line officers, a well defined idea of what Bryan has coming to him at the Golden Gate was garnered for publication.

Let John Barleycorn Sleep. The determination also that the liquor issue should be left alone also was approved, perhaps not unambiguously, but overwhelmingly. Secretary Daniels, it is believed, would be satisfied to have the party incorporate Bryan's dry enforcement plank in the platform, but the "more practical minded" members of the cabinet think it would be wise to let the subject alone on the theory that the issue is settled once for all, and there is no use rubbing it in on the poor "wets."

Palmer in Outer Gloom. Attorney General Palmer's chances are not so much talked about in administration quarters as they used to be. What the reason for this is no one seems to know, but it is a fact. The convention plans call for a great Wilsonian demonstration. Chairman Cumming's keynote speech to be a tribute to the president, the like of which has not been sounded in American political forums in many years. The president will be pictured as a martyr to the cause of world democracy and peace, being cruelly persecuted by political enemies.

WILSON GETS BLAME FOR SUGAR PRICES

HOOVER WARNING TO WILSON OF SUGAR CRISIS MONTHS AGO IS REVEALED IN CONGRESS

Washington—Copy of a cablegram sent from Paris June 23, 1919, by Herbert Hoover to John H. Barnes, president of the United States Grain corporation, for transmittal to President Wilson declaring that "determination of the sugar policies requires immediate consideration" was made public in the house by Representative Tinkham, Republican, Massachusetts.

The cablegram was read by Mr. Tinkham in the course of a speech in which he charged that responsibility for the high price of sugar was "placed squarely on the shoulders of President Wilson." The Massachusetts representative declared the president could relieve the situation even now by following Mr. Hoover's advice and ration non-essential consumers.

Urged Sugar Control. Mr. Hoover said in his message to Mr. Barnes, as read by Mr. Tinkham, that it was necessary to take important decisions as to sugar control in this country in order to anticipate the marketing of a new beet harvest and to settle the policy with Cuba for the next year.

"Any continuation of control will require action by congress," Mr. Hoover said, "and it must embrace appropriations, the continuation of power and embargo, control of speculation, profiteering, and distribution. The only alternative course to any action of the above character is for the sugar equalization board to announce its cessation of control at an early date prior to the marketing season of domestic beet and cane sugar and to dispose of the remaining stocks from the old crop purchased by them at the market prices from day to day until they are exhausted."

Sacks Over Views. Mr. Hoover reviewed the world situation affecting the sugar supply. With his statement conditions required immediate consideration, Mr. Hoover called attention to his lack of intimate knowledge of affairs at home after an eight months' absence on European relief work, and suggested that Mr. Barnes "request Prof. Taussig, Mr. Zabriskie, and other members of the sugar equalization board to present you their recommendations in the matter independent of myself."

Mr. Tinkham, author of the resolution for the sugar investigation, declared Mr. Hoover's warning was reinforced by a request from the sugar board "for executive approval and purchase of the Cuban crop" and "both warnings were unheeded by the White House."

BOARD WILL REFUSE TO OPEN UNSAFE SCHOOLS

La Crosse, Wis.—Unless the common council reconsiders its action and authorizes the construction of the Washburn and Logan schools, delayed because of the high cost of building materials, the board of education will "hesitate to assume the responsibility of opening the condemned schools to the public and compelling children to attend them under existing conditions." This is the ultimatum sent to the common council by the school board. A special meeting of the council is expected to be called to again take up the school question.

GOTHAM SWIMS IN BOOZE OBTAINED ON SPURIOUS PERMITS

FEDERAL OFFICERS TRY TO RUN DOWN BAND OF CONSPIRATORS FLOODING CITY WITH LIQUOR

New York—Officials in the office of Charles R. O'Connor, federal prohibition director in this state, admitted today that within the last four months 400,000 gallons of whiskey and alcohol of a retail value estimated to be more than \$2,500,000 had been obtained by an organized band from warehouse and whisky dealers in this and other cities throughout the country on spurious permits containing the forged signature of the director.

All the permits, it also was admitted, were made out on forms obtained from the New York office of the director. It was said O'Connor had made a flying trip to his Albany office to learn whether there were frauds there also.

Whisky Supply Continues

Although the entire force of James Shevlin, federal prohibition supervising agent, who is in charge of the enforcement of the prohibition law in this city, backed by operatives of the department of justice and secret service agents, have been endeavoring to run down the band at the head of the conspiracy to distribute whisky and "doctored" alcohol, the conspirators within the last two weeks are known to have obtained thousands of gallons of whisky through the use of the fraudulent permits.

When clerks in the office of Mr. O'Connor opened the first batch of mail received this morning from dealers and warehouse proprietors in this and other cities they found four more forged permits, revealing that forty-seven barrels of whisky had been obtained on them from firms in this city and Jersey City within the last ten days.

BREAK INTO SCHOOL AT CHIPPEWA FALLS

Chippewa Falls, Wis.—Finger prints were taken of all the boy students of the high school here in the hope of clearing up the mystery of the person who broke into Prof. Nelson's room the other night. The guilty person was of the belief, evidently, that Nelson had a big sum of money locked in the desk. He had banked it the day before.

Which is You?

Is your evening job to sit on a milk-stool with your head in a cow's side and wearily milk your herd by hand?

Or, is your milking quickly,

easily and cleanly accomplished with the Pine Tree Milker—leaving you free to clean up, hop in your automobile and spend the evening where you choose and as you choose?

PINE TREE MILKER

is endorsed by many of America's biggest and most successful dairymen and is admitted to be the world's greatest milker. In two years' time its wonderful achievements have actually taken the country by storm. It is the one milker that sells on its record alone.

Don't Buy Any Milker Until You See the Pine Tree

A Milker is too important to select without being sure you've found the best. You can't afford to make mistakes. And you can't afford to get along another season without a good Milker. So let's get together at once and talk it over.

Come In or Phone

Come in and see the machine the first chance you get. Or better, phone and let's talk it over at your own place. Even if you haven't all cash to spare, don't wait. That part can be managed easily.
